

1. Draw a traditional hopscotch diagram (like the one shown). (Chalk is best for asphalt and pavement outdoors. If you're playing inside, use masking or painter's tape.)
2. Throw a small stone, twig, beanbag, or other marker into the first square. (If it lands on a line, or outside the square, you lose your turn. Pass the marker to the following player and wait for your next turn.)
3. Hop on one foot into the first empty square, and then every subsequent empty square. Be sure to skip the one your marker is on.
4. At the pairs (4-5 and 7-8), jump with both feet.
5. At 10, hop with both feet, turn around, and head back toward the start.
6. When you reach the marked square again, pick up the marker -- still on one foot! -- and complete the course.
7. If you finished without any mistakes, pass the marker to the next player. On your next turn, throw the marker to the next number.
8. If you fall, jump outside the lines, or miss a square or the marker, you lose your turn and must repeat the same number on your next turn. Whoever reaches 10 first, wins.

Charlie Chaplin Went to France

Charlie Chaplin went to France,
To teach the ladies the hula dance.
First on the heels,
Then on the toes,
Around and around and around you go.
Salute to the Captain,

Bow to the Queen,
Touch the bottom of the submarine.

And he picked a few flowers
Just for fun.
